

Outlying school: Spurfield

#4286: 1946-1956

The old Spurfield school was built with only one ply of wood outside of the two-by-fours, and a layer of paper inside. It had sporadic use because of the uncertain nature of the employment for the local population and the isolation of the settlement. A new school was built about 1951 while Mrs. F Trollope was there. In 1957 the school closed completely and the children were bussed to Smith. (pp. 79-80 Clover & Wild Strawberries)
